

Thank you for your enquiry about cataract surgery at Clinica London with Ms Laura Crawley.

The first step is to attend the clinic for a medical assessment with Ms Crawley who will examine your eyes and confirm whether you require cataract surgery. She will then discuss the various surgery techniques available and the best option for you.

If you are interested in proceeding with cataract surgery, Clinica London will prepare you a full quote. Please note that if you have private medical insurance your surgery may be covered depending on your policy with them.

Below are the approximate prices for cataract surgery as a self-paying patient. Please note that these prices reflect the cost of surgery on **ONE** eye:

• Initial Assessment by Ms Laura Crawley	£250
• Biometry / Eye Measurement by Nurse	£215
• Surgeon's Fee (inc. local anaesthesia)	£1200
• The London Clinic Hospital Fee – day case under local anaesthesia	£1505
• The London Clinic Hospital Fee – day case under sedation	£1890
• The London Clinic Hospital Fee – day case under general anaesthesia	£2060
<i>(An additional hospital charge of approx £600 will be incurred if an IOP premium lens is required)</i>	
• Anaesthetist fee (applicable for sedation and general anaesthesia)	£350
• 1 st post-operative follow up appointment with nurse	No charge
• 1 st follow up with Ms Crawley, 1-2 week post operation	£220
• 2 nd follow up with Ms Crawley, 2-4 weeks post operation	£200

The above prices includes one course of standard post-operative eye drops as required.

Once you decide to go ahead with cataract surgery, an appointment is made for you to see the nurse for the pre-cataract assessment and measurement for the lens implant (biometry).

Please contact us on 0207 935 7990 to book your initial consultation or if you have any questions you want to ask.

Kind regards

The Clinica London Team
